

LONGHORN PORTAL STATUS REPORT

ENGAGEMENT NAME: Longhorn (PO-00004138)

Report as at 27th November 2019

LONGHORN E-TRADE PORTAL PROJECTS STATUS						
Project ID	PENDING ISSUE	EXPECTATIONS	OBSERVATIONS	ACTION POINTS	RESPONSIBILITY	COMMENTS
E-Trade Portal	1. Loading speed	1. Mobile loading speed - Above 80%	Current loading speed is at 35%	Improve loading speed to a minimum of 80% (Use pagespeed insights to test speed)	Shawn	
		2. Desktop loading speed - Above 80%	Current loading speed is at 68%	Improve loading speed to a minimum of 80% (Use pagespeed insights to test speed)	Shawn	
	2. User Interface	1. The portal should be seamless and responsive to the customers	The portal is unresponsive, once you click on an image, it simply takes you to the home page	Have links attached to each of the images/menus be responsive	Shawn	
		2. Overlapping menus	Some menus overlap on others giving customers unpleasant experience	Remove overlapping menus, generally make the site appealing to customers	Shawn	
		3. Responsiveness on contacts	E-Mail is the only responsive contact	All contacts should be responsive	Shawn	
		4. Portal accessibility on multi-channel access	Mobile loading does not display any MENU	Make the portal be accessed on mobile with full functionality	Shawn	

		5. Functionality	Cannot be able to test and confirm full functionality due to unavailability of the solution	Work to ensure the solution is available online and that it achieves the desired output for the client	Shawn	
	3. Portal Hosting	1. The portal should be hosted on cloud	Portal currently is hosted on the Longhorn servers/DBSL servers	Outline steps required for cloud hosting and actualize the same. This could improve the loading speed as well.	Shawn
